ADVANCED POLYMER TECHNOLOGY

World Class Surfacing  
Solutions & Specialties

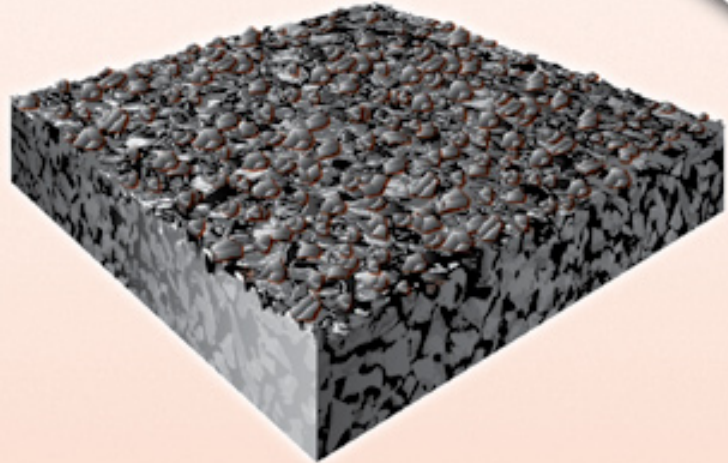

# *Spartan B*

## Layers

- One paved black mat made from SBR rubber and binder with an average depth of 13 mm

## Highlights

- Permeable paved in place black mat system
- Full-depth
- Avg finish 13 mm
- Polyurethane bound permeable SBR basemat

# *Spartan E*

## Layers

- One paved colored mat made from EPDM rubber and binder with an average depth of 13 mm

## Highlights

- Permeable pave in place colored mat system
- Full-depth
- Avg finish 13 mm
- Polyurethane bound permeable EPDM basemat
- Can be produced in a wide range of colors
